***The Future is Riding on AJAX.®***

# CONCRETE

Ajax has paved more than 14 million cubic yards of concrete on roadways, highways and runways. On-site batch plants. Veteran personnel. A vast fleet of concrete paving equipment to meet every project specification. The industry's latest technology and next-generation leadership.

- Our eight central mix batch plants can be mobilized and calibrated to each project's unique specification and design needs.
- We own the most modern, computer-guided equipment and innovations available, such as string-less technology, for unequaled precision and efficiency.
- At Ajax, if you're not early, you're late. We have a long history of completing even the most demanding and complex jobs ahead of schedule.
- On every project, at every step, we quality test the concrete materials and the mix to ensure results to the precise specifications.
- Ajax Paving is very proud to have pre-qualification and licensing across the U.S. as a prime contractor or subcontractor.
